3.2 Innovation Ecosystem

3.2.1Institution has created an ecosystem for innovations, Indian Knowledge System (IKS),including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident.

"Innovation: Imagine the future and fill in the gaps" - Brian Halligan.

The institution provides a pacific eco-friendly innovation ecosystem to nurture the students' creative thinking and innovative ideas. The college constituted various cells and clubs to give life to students' innovation. We encourage innovative ideas from staff, students, alumni and even parents, Most of the students have farmers family background. Most of the students are from poor background so they cannot afford the Computers or laptops that's why we provide knowledge of computers and practical work for learnings purpose.

Greenery in college is an outcome of biodegradable solid waste management and tree plantation. Biodegradable solid waste is collected and used as compost project; hence the waste is recycled. Trees in campus also get the compost from the project. A good quality wormy compost helps growth of the plants in campus.

We organize Different Seminars and Programmes to invite students from non educational background. Every seminar gives us some innovative ideas. State level competitions organised every year contemporary current affairs give many new and innovative ideas, student participants all over the state talk about constructive means on the current issues.

Students of S.Y. M.Lib & T. Y. B.C A. are given a project on particular topic. Though it is a part of university examination, students' ideology is developed accordingly. Departments of BCA, B.Sc Computer Science, Mlib have organised different programme on varied themes. Faculty of Commerce and management works on Entrepreneurship development. For Students we provided them Carrier katta as guidence programme for students who used to prepare for competitive exams. Workshops are organised on conservation of environment, digital literacy for women and women's laws.we arrange paryavaran sarnkshan shibir, we arrange different field visits, Most of the students have farmers family background. They get the knowledge from their field visits. Farmers in locality get a free knowledge of farming and guidance there on.

We have a well-equipped computer lab and language laboratory with 60 computers. Students while working on computers with various software strike with new ideas. Students use self-learning mode in language laboratory and generate new ideas. Alumni visit college regularly and share their experiences. These alumni, working in various enterprises give ideas for betterment. Vehicle free Saturday gives calm and fresh atmosphere in college campus.

Inspiration is the key to innovation, various departments and clubs organize guest lectures, and awareness and training programs respectively to inspire the students with a wide knowledge of the resource person. To impart practical knowledge the departments arrange Industrial Visits and Field trips to various places. Clubs and Cells spearhead the implementation of innovative ideas, for instance, the Eco club and Green Campus Cell has started to maintain Herbal Garden as per the students' plan.

This helps in creating better environment. Management, Principal, IQAC, CDC Staff, Alumni and Students continuously work for innovation in the concerned areas and departments.

महाविद्यालयीन समन्वयकांनी ह्या महत्त्वाच्या सूचनांकडे लक्ष द्यावे

करिअर कट्टा उपक्रम हा विद्यार्थ्यांसाठी सुरू केलेला उपक्रम आहे व तो ऑनलाईन पद्धतीने चालतोय मग तो विद्यार्थ्यांपर्यंत पोहोचवण्याचं काम आपल्याला करायचे आहे. त्यासाठी महाविद्यालयात विविध व्हाट्सअप ग्रुप असतात, विविध कार्यक्रम महाविद्यालयात चालू असतात, करिअर संसदेच्या माध्यमातून, विद्यार्थी आपल्या संपर्कात असतात ह्या सगळ्या माध्यमातून विद्यार्थ्यां पर्यंत सहज हा उपक्रम पोहोचू शकतो. विद्यार्थ्यांना ह्या उपक्रमाविषयीची माहिती झाली आणि त्याचा फायदा जर कळाला तर अनेक विद्यार्थी उपक्रमात स्वत:हुन जोडले जातील.

- विद्यार्थ्यांना योग्य वेळी मार्गदर्शन
 मिळाल्यामुळे व महाविद्यालयातच सर्व सुविधा
 मिळाल्यामुळे महाविद्यालयाचा रिझल्ट वाढेल.
- 2) महाविद्यालयाला नॅक साठी त्याचा फायदा होईल.
- 3) तुमच्या थोड्या प्रयत्नामुळे अनेक विद्यार्थी विविध पदांवर कार्यरत होतील त्याचे श्रेय तम्हालाच मिळणार आहे.
- हा आनंद आपण कोणत्याच मापात मोजू शकत नाही.
- 1. यासाठी मात्र मला विद्यार्थ्यांचे जास्तीत जास्त रजिस्ट्रेशन करणे गरजेचे आहे.
- 2. माझ्या महाविद्यालयाचे युजर आयडी, पासवर्ड काढून घेणे गरजेचे आहे.
- 3 महाविद्यालयात करिअर कटाचे बॅनर असणे

Department of Management,

Sagar BCA College, Devmurti

Tq.Dist.Jalna

Date & Time of Visit: 29th Aug – 2018 **Starting Point:** Sagar College, Jalna

Duration: 1 Day

Faculty Members: Prof.Najardhane, Prof.Suradkar D.E., Prof.Patil

S.P.,Mr.Harshavardhan Tanpure **Total Number of Students:** 81

Organized By: Sagar BCA College, Jalna.

Samarth sahakari sakhar karkhana sugar factory is registered under the Maharashtra Cooperative Societies Act 1961, on 20th November, In 2002 plant was expanded 1,250 TCD to 2,000 TCD. Then in 2007 it was expanded up to 3,500 TCD. Lastly it was expanded in 2009 with a crushing capacity of 5,000 TCD. Sugar is manufactured through Double Sulphitation Process and to reach the International standard of Sugar Syrup Clarification System has been installed in factory. Major products are as follows:

SUGAR:

The sugar which is a Carbo-hydrate is obtained from sugar cane and is known as Cane Sugar. It contains 99.50% sucrose. Actually cane sugar is chemically known as Sucrose which is disaccharide. It is soluble in water. Sucrose is dextrorotatory on hydrolysis.

• BAGASSE :

Bagasse is the residue obtained from crushing cane in the mills. It contains about 50% moisture and 2% sugar and the balance is fiber. It is also very commonly used as fuel in boilers in the Sugar Factory. Bagasse is used as a row material for the production of Cellulose, Furfural, Paper, Particle board, Cattle feed etc.

- **MOLASSES**: Molasses which is also known as black strap molasses or treacle is a dark brown viscous liquid obtained as a by-product in processing Cane Sugar. It contains nearly 45% uncrystallized, fermentable Sugar & some Sucrose.
- **RECTIFIED SPIRIT (RS)**: It is manufactured by Formation & Distillation of molasses. It is used for manufacturing of Acetic Acid, Acetone, Oxalic Acid Absolute Alcohol & other various chemicals.
- **ABSOLUTE ALCOHOL (ETHANOL) :** It is manufactured by Azeotropic Distillation . It is used as Fuel in Automobile and also in Pharmaceutical Industries.

SUMMARY

The visit was aimed to enhance the knowledge of the students, to understand the operations that are used in the **Samarth sahakari sakaar karkhana**, and to understand the different process implemented to prepare sugar from sugarcane. At Industry students were able to see and understand different mechanical operation carried out in industry e.g. cutting, shredding, screening, centrifuging etc. Students have experienced the actual operations which are being taught in the classroom e.g. evaporation, crystallization etc. The aim of visit was fulfilled at the end of "SUGAR INDUSTRY" visit.

ACKNWLEDGEMENT

We would like to thank Dr. Mahajan V.V.(Principal, Sagar BCA College, Jalna.) and the management of Sagar Educational institute for permitting us for industrial visit at, **Samarth sahakari sakaar karkhana**, **Jalna**. We would also like to acknowledge Rajesh tope, staff, Samarth sahakari sakaar karkhana for allowing a visit in industry and to Mr Solanki for giving his valuable inputs to the students and his excellent support throughout the visit.

Field Work Report

A Venue: Kusum agro products and tourism, Somnath Jalgaon, Jalna

Date:10/01/2022

M.Lib.batch of IVth semester students of department of Humanities along with two faculties visited Kusum Agro Products and tourism, on 10.01.2022. kusum agro products and tourism is the first dairy company to develop and use thermal battery-based technology in its BMCs, for chilling milk immediately after procurement. This helps in chilling the milk right at source, even in rural areas with irregular power supply.

The company employs at least two types of testing: Gerber Method and Eko Milk Analyzers. The milk is then subjected to pasteurization, homogenization and bacteria clarification all performed by a staff of professionals with the single-minded goal of adhering to the highest standards of quality. This visit was mainly focused on to understand the processing of milk involved, the technology and equipments used.

Mr. R. Mule (HR) explained about the facilities available inside the company. Mr. S. Arjun (Lab incharge) explained the milk processing, preparation of types of milk, analysis of milk, despatching unit of milk products and storage of the milk etc., After the visit, The students able to understand the processing of milk and curd, analysis of quality of milk, despatching process of milk, preservation of milk.

Students got very imp information about milk, milk is vital product for day to day life for human being. basically many students are from agricultural background so they got useful information for their animals. so all day spent well as field visit.
